Forename(s)

Surname

Date of birth

Day Month Year

--	--	--	--	--	--	--	--

Scottish candidate number

--	--	--	--	--	--	--	--	--	--

Number of seat

- 1 You may not use a calculator.
- 2 Answer as many questions as you can.
- 3 Write your working and answers in the spaces provided. Additional space is provided at the end of this question-answer book for use if required. If you use this space, write clearly the number of the question involved.
- 4 Full credit will be given only where the solution contains appropriate working.
- 5 Before leaving the examination room you must give this book to the invigilator. If you do not you may lose all the marks for this paper.

FORMULAE LIST

- Circumference of a circle: $C = \pi d$
Area of a circle: $A = \pi r^2$
Curved surface area of a cylinder: $A = 2\pi r h$
Volume of a cylinder: $V = \pi r^2 h$
Volume of a triangular prism: $V = Ah$

Theorem of Pythagoras:

$$a^2 + b^2 = c^2$$

Trigonometric ratios
in a right angled
triangle:

$$\tan x^\circ = \frac{\text{opposite}}{\text{adjacent}}$$

$$\sin x^\circ = \frac{\text{opposite}}{\text{hypotenuse}}$$

$$\cos x^\circ = \frac{\text{adjacent}}{\text{hypotenuse}}$$

Gradient:

$$\text{Gradient} = \frac{\text{vertical height}}{\text{horizontal distance}}$$

1. Carry out the following calculations.

(a) $2.73 + 7.6 - 8.4$

2.

Paulo's Pizzas

Student Discount

$\frac{1}{3}$ off the price of each pizza

Marks

KU	RE
3	
2	

Emily is a student and she buys a pizza from Paulo's Pizzas.
She chooses a pizza which is normally £8.49.
How much will Emily pay for the pizza?

3

3. A new movie costs \$320 million to make.
Write this amount in scientific notation.

2

4. Jenni is making a wallpaper border.
She is using stars and dots to make the border.

- (a) Complete the table below.

Number of stars (s)	1	2	3	4	5
Number of dots (d)			11		

- (b) Write down a formula for calculating the number of dots (d), when you know the number of stars (s).

- (c) Each star is 10 centimetres long.

The wallpaper border Jenni makes is 300 centimetres long.

- (i) How many stars does Jenni need?
- (ii) How many dots does she need?

5. The line AB is drawn on the grid below.

Marks

KU	RE

Calculate the gradient of the line AB.

2

6. A box contains 10 coloured balls.
There are 4 yellow balls, 3 blue balls, 2 green balls and 1 red ball.

- (a) David takes a ball from the box.
What is the probability that the ball is blue?

Marks

	KU	RE
1		
2		

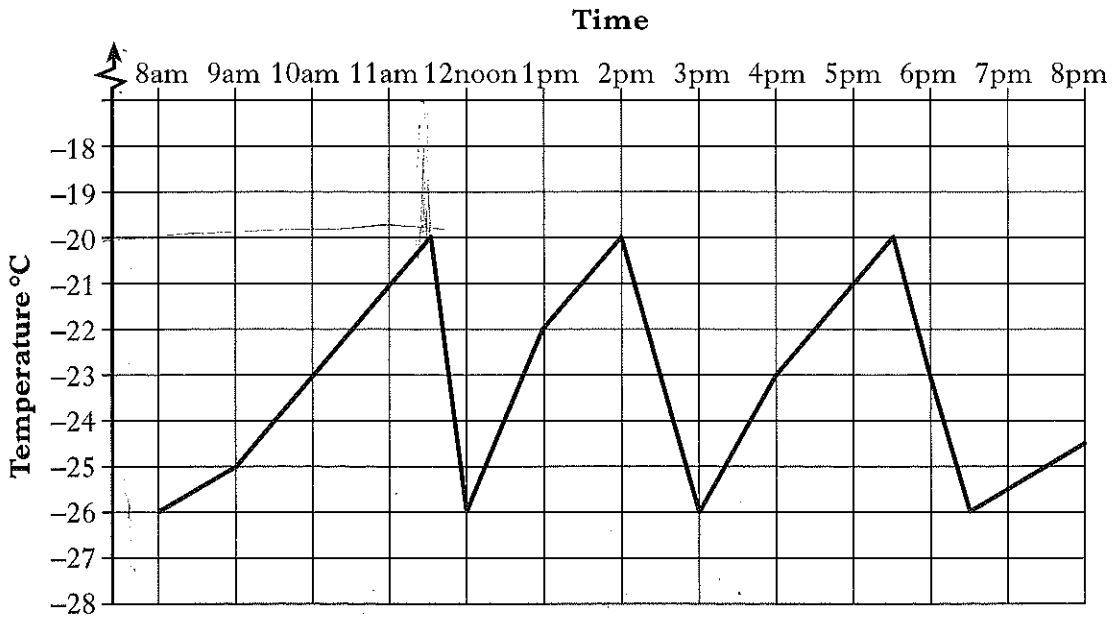

- (b) The ball is put back in the box.
2 yellow balls and the red ball are then removed.
What is the probability that the next ball David takes from the box is green?

8. Rachel asks 19 friends how many text messages they sent last week.

Their answers are shown below.

34	25	46	62	28
38	42	23	25	15
32	52	35	44	30
10	33	41	55	

- (a) Display Rachel's friends' answers in an ordered stem and leaf diagram.

- (b) What is the median number of text messages?

3

10. Maria is two years old.

Each week she goes to the nursery for 3 full days and 2 half days.

(a)

Playwell Nursery		
	Prices	
Age	Full day	Half day
0-2 years	£28	£15
3-5 years	£23.50	£12.50

Maria's mother pays for her to attend Playwell Nursery.

How much does Maria's mother pay each week?

2

On Monday, Tuesday and Wednesday Maria goes to nursery from 9 am to 3 pm.

On Thursday and Friday she goes from 9 am to 12 noon.

(b) The nursery introduces a new hourly rate.

New Rate £5 per hour

Will Maria's mother save money when the nursery changes to the hourly rate?

Give a reason for your answer.

12. Gordon is insuring his car with Carins Insurance.

The basic annual premium is £765.

As Gordon is a new customer his premium is calculated by taking $\frac{1}{5}$ off the basic annual premium.

However, because he wants to pay in monthly instalments, Carins Insurance add an extra 8% to his premium.

How much in total will Gordon pay per month?
